

Project title - The mobile inclusive resource center for children

"Children's Dreams Without Borders"

We must preserve the psyche and life of our children as much as possible. Inclusive education is a priority for ensuring quality education for all children. It is also an opportunity for socialization, an adaptation of children with special educational needs, and their inclusion in life. **The goal of the project** is to reach more children in the communities of Ukraine and reveal the abilities of each child, develop their personality, teach them to conduct dialogue, develop tolerance and empathy, understand the world around them, and have the courage to create it in a new way. The uniqueness of the project is the possibility of organizing the work of the Centre in all communities of Ukraine, accessible in wartime due to its mobility. **The task of the project** is to carry out a comprehensive psychological and pedagogical assessment of the child's development; establish whether the child has special educational needs; develop recommendations for the organization of inclusive education; ensure the provision of psychological and pedagogical assistance to the child; provide methodological assistance to teachers and parents of children; provide systematic qualified support for children.

The content of the intended activity. The mobile inclusive resource centre conducts a comprehensive assessment of the child's development and provides correctional rehabilitation and psychological and educational services. A comprehensive assessment is carried out at the child's place of study and/or residence (stay) by specialists of the Mobile Inclusive Resource Centre individually. The activities of the inclusive resource centre are provided by: the head of the inclusive resource centre; pedagogical workers (speech teacher, special education teachers. Psychological assistance is also provided to parents of children. Group meetings will be held for them, where they can talk about their pain, share their experience of resolving conflict situations, and get practical advice from a specialist and moral support. The organization of summer and winter children's camps is planned.

Resources necessary for project implementation: means of rehabilitation; equipment; mobile furniture; modern methods and didactic equipment for the provision of psychological-pedagogical, correctional-developmental, psychological and educational services; specialized computer programs; teaching and methodical manuals; funds for the training of specialists to work with children and parents, for the organization of summer and winter children's camps; a mini bus to ensure the mobility of this Center.

The project is sustainable. **The partners of the project are** NGO "Inclusive Studies", NGO "Institute of Cross-Border Initiatives", Inclusive Hub "Space of Action" of Lesya Ukrainka Volyn National University <https://inhub.lutsk.ua/2021/12/28/uroky-tolerantnosti-video/>
